## **COMPARISON INFORMATION**

**All companies like to compare their products to other companies.**

**We of Eagle Feather Homes, and Eagle Feather Log Homes, are no different. We are amazed however, that none of the other companies will compare their products to ours. We would certainly welcome the comparing of their products to ours, “IN FACT WE INVITE THE COMPARISON.”**

**Since our competitors have refused our invitation for their comparison, we have decided to do our own.**

**The following page is a listing of “OUR STANDARD FEATURES” and a comparison with our 3 main competitors. We feel this may be enlightening.**

**We are setting the following categories so there will be no confusion.**

- |   |              |
|---|--------------|
| <b>1. Standard as part of construction package (items included in total price*)</b> | <b>“S”</b>   |
| <b>2. Option available at additional cost</b>                                       | <b>“O”</b>   |
| <b>3. Upgrade and available at additional cost</b>                                  | <b>“U”</b>   |
| <b>4. Not offered or not available at any cost</b>                                  | <b>“N/A”</b> |
| <b>5. Special order item only, available at additional cost</b>                     | <b>“S/O”</b> |

**ALL PANELIZATION COMPANIES work with the same basic material of some type of lumber – “lumber comes from trees”.**

**ALL PANELIZATION COMPANIES must meet federal guidelines, in order to ship their product for use in the erection of a building.**

**ALL PANELIZATION COMPANIES could manufacture their product to meet our standards. The question is “WHY DON’T THEY DO IT”?**  
**COMPARISON INFORMATION PAGE TWO**

**Some items which included in the total pricing must be pre-paid, these include plans and engineering.**
